

Aurora™ CLASS A MOTORHOMES

By Coachmen

FLOORPLANS

■ Indicates Carpeting
△ Indicates Outside Storage Location

The automotive lines and functional design of the Aurora cockpit, make it easy for you to take command. Climb into the drivers seat and enjoy the view. Coachmen's exclusive Site Rite™ dash angles downward for a full 20 degrees of increased visibility.

Enjoy your favorite music as you travel with the large button dash stereo which includes a CD player, built in weatherband, and is satellite radio ready. A passenger side computer desk provides a great workspace while on the road.

Aurora puts comfort and luxury into the drivers seat. Both captains chairs feature 3-point seat belts integrated into the seat structure. Shown here is the upgraded soft touch seats with driver side power adjust controls. Enjoy the outdoors even more with the optional exterior entertainment center.

Wider Widths: Numerous Coachmen floorplans feature the "wide body" design concept, which gives you significantly enhanced interior living space and innovative floorplans.

In making your purchase decision, you should be aware that a few states restrict access on some or all roads within the state to vehicles with a maximum 96" width, although special road usage permits may be available. Vehicles up to 102" in width are permitted in the vast majority of states. You should confirm the road usage laws in the states of interest to you before making your purchase decision. If width is of concern to you, we invite you to consider the broad array of other Coachmen models offered in the standard 96" width.

IMPORTANT NOTE: All capacities are approximate, and all dimensions are nominal. Coachmen motorhomes are designed to allow for a wide variety of uses, extended trips with two people or short trips with multiple people. Accordingly, each unit allows ample room for sleeping, seating, fluids and cargo. While the customer is the beneficiary of this design, the customer also bears the responsibility to select the proper combination of passengers, cargo, load, and tow vehicle without exceeding the chassis weight capabilities. Consumer may need additional braking capacity to tow loads greater than 1,000 pounds.

Seat belts should always be worn for passenger safety. Seat belts are provided at most locations to allow convenience in selecting which seat to occupy. However, it is not intended that all seating positions equipped with a seat belt may be occupied while the vehicle is in motion, without regard to other weight factors.

All Coachmen motorhomes are designed to ensure that the number of passengers allowed while the vehicle is in motion will always at least equal the stated sleeping capacity. Though extra seat belts may be provided, for your safety and the proper operation of your vehicle, limit your passengers to the number allowed by the Net Carrying Capacity of your vehicle.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Coachmen reserves the right to make all such changes without notice, including changes in prices, colors, materials, equipment and specifications, as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Coachmen dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.

GVWR (Gross Vehicle Weight Rating): The Maximum permissible weight of the unit, including the UWW plus all fluids, cargo, optional equipment and accessories. For safety and product performance, do not exceed the GVWR.

CW (Curb Weight): The weight of the unit without factory or dealer installed options, plus allowance for the weight of full fuel capacity. The "payload capacity" for all other fluids, cargo, occupants, optional equipment and accessories can be determined by subtracting the CW from the GVWR.

GAWR (Gross Axle Weight Rating): The total weight each front/rear axle, suspension and tire system is designed to carry. When loading the unit, care should be taken to balance cargo weight in consideration of the GAWRs.

GCWR (Gross Combined Weight Rating): The maximum total weight of the loaded unit, plus a tow vehicle. This includes the weight of both the unit and tow vehicle, fuel for each, all other fluids, cargo, occupants, optional equipment and accessories.

Aurora is Available on Your Choice of Ford or Workhorse Chassis.

- 10 Insulated A/C ducts with radius corners for maximum cooling efficiency

Large storage bays on the Aurora provide plenty of room to stow your camping gear.

Ask Your Dealer About These Coachmen® Exclusive Design Features.

- A** **Store Rite™** baggage compartments are a seamless one-piece roto-cast structure that provides a secure place for your gear.
- B** **ALUMICAGE™** aircraft grade aluminum framed construction throughout the walls and roof, provides a solid and light-weight superstructure for the Aurora.
- C** **SureLine™** custom wiring harness provides color coded wires grouped together in a protective autoloom covering. Specific wiring schematics make for easy serviceability.
- D** **Duratube™** copper LP lines help to extend the life of your appliances. Corrosion resistant copper lines run the full length from LP source to the appliance.
- E** Maximize your cooling efficiency with the **Even Cool™** air conditioning system. Insulated ductwork with radius corners provides for smooth air flow.
- F** The Coachmen **Site Rite™** dash was designed with a 20 degree incline for increased visibility and reduced front blind spot.
- G** The **Water Works™** Utility Panel simply displays how to perform key water functions, such as filling, draining and winterizing.
- H** **No-Mess™** Termination system is an easy to swivel boom arm that provides a convenient storage location for the termination hose. Your storage bay stays cleaner and the hose can remain connected after use.

CLASS A MOTORHOMES

Enjoy the surroundings as the sun rises up through the windows of your Aurora. Catch the forecast for the day on the 27" overhead television as you relax on the plush hide-a-bed sofa. The Aurora has everything that you need to start your day off right.

The command center provides easy access to commonly used gauges and switches.

The steel framed innerspring booth dinette is not only stylish and functional, it is also safe. Coachmen places seat belts at every fixed seating location.

Brazilian Cherry

Welbeck Birch

Castleton Cream

Sicilian Umber

Blue Saxony

Decor Selections

Dazzling interiors feature skillfully coordinated upholstery and window treatments. Coachmen RV chooses only top-grade fabrics wear-dated as heavy-duty. These fabrics have been tested for durability beyond 15,000 double rubs (in and out action) to simulate heavy usage. An average chair in an American home is subject to only 3,000 double rubs per year.

Fabric Key: A. Main B. Accent C. Bedspread

Exceptional countertop and storage space are thoughtfully designed into every Aurora. Hardwood cabinet doors, a designer pull out faucet, silverware drawer, and an available convection microwave are just a few of the conveniences that make the Aurora a home.

The warm and inviting living area of the Aurora is your own private retreat. Surround yourself in luxury with amenities like the overstuffed recliner chair, residential style sofa, upgraded lighting package, designer window treatments, and hardwood cabinetry.

The deluxe styling of the Aurora bathroom is top of the line. From the glass shower enclosure, to the upgraded vanity countertop and wood framed medicine cabinet, the details were designed with your comfort in mind.

Generous wardrobe and an abundance of drawer storage give you plenty of room to bring it all. A 20" flatscreen television in the bedroom is also a convenient option.

Aurora's slideout bedroom suite surrounds you with contemporary window treatments, a stylish bedspread with pillow shams, designer lighting package, and an elegant architectural headboard.
